

# Fountain Creek Watershed

## Flood Control & Greenway District

### FACT SHEET

## The District

- The Fountain Creek Watershed, Flood Control, and Greenway District is a political subdivision of the State of Colorado created by the Colorado Legislature by Senate Bill 09-141 and signed into law by Governor Ritter on April 30, 2009.
- The District's mission is to effectively protect, develop and use the natural resources in the District for the enjoyment of the public for generations to come.
- The District is comprised of El Paso and Pueblo Counties. The member governments are Palmer Lake, Monument, Colorado Springs, Manitou Springs, Green Mountain Falls, Fountain, Pueblo, Pueblo County and El Paso County.
- The District was created to manage, administer and fund capital improvements necessary to:
  - Prevent and mitigate flooding, sedimentation and erosion;
  - Improve water quality and otherwise address water quantity and water quantity issues;
  - Improve drainage;
  - Fund the acquisition and protection of open space;
  - Develop public recreational opportunities, including parks, trails, and open space;
  - Improve wildlife and aquatic habitat and restore, enhance, establish and preserve wetlands.

- The District is governed by nine Directors who serve two-year terms on the Board of Directors:
  - El Paso County Commissioner Longinos Gonzalez, El Paso County
  - Pueblo County Commissioner Terry Hart, Pueblo County
  - City of Colorado Springs City Council President Richard Skorman, City of Colorado Springs
  - City of Pueblo City Council District 2 Representative Larry Atencio, City of Pueblo
  - Fountain City Council Member at Large Greg Lauer, City of Fountain
  - City of Manitou Springs Ward 2 Council Member/ Mayor Pro Tem Nancy Fortuin, Small Municipalities
  - Leroy Mauch, Lower Arkansas Valley Conservancy District
  - Jane Rhodes, Pueblo County Citizen at large
  - Irene Kornelly, Citizens Advisory Group

- The District Board works closely with the Technical Advisory Committee (TAC), the Citizens Advisory Group (CAG) and the Outreach Subcommittee of the CAG. The Outreach Subcommittee provides information, education and engagement opportunities for citizens across the watershed through the District's website, social media, public events and programs.

Since its creation ten years ago, the District has overseen, promoted and supported many projects and programs that positively impact the Fountain Creek Watershed. It has also increased awareness of watershed health and inspired thousands of volunteers to take action.

The Comprehensive Planning projects have included everything from creating a Fountain Creek Corridor Restoration Master Plan to partnering with the Colorado Parks and Wildlife to study Fountain Creek's threatened fish species. Other areas of focus include:

- Flood control, drainage and floodplain management;
- Fountain Creek, Cheyenne Creek and Monument Creek Watershed Restoration and water rights protections;
- Post-fire water quality evaluation downstream of the Waldo Canyon and Black Forest wildfires.

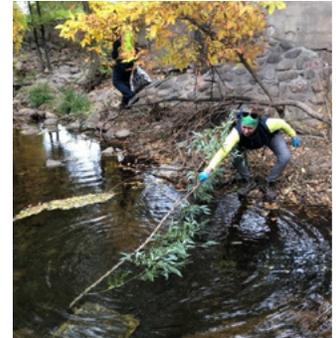

More than a dozen construction projects have been identified, planned, and implemented, including:

- Pueblo Levee sediment collection and removal which removes some 15,474 tons per year;
- Frost Ranch, Masciantonio Trust, and Barr Farm Bank Stabilizations to prevent more than 120,000 tons of sediment a year from entering the waterways;
- Highway 47 and Pinon Bridge Bank Stabilization and Channel Realignments to prevent more than 50,000 tons of sediment a year from entering the waterways;
- The District has processed and approved 8 Land Use Applications and denied one in "The Corridor" (the FEMA-defined 100-year floodplain south of the city of Fountain and north of the city of Pueblo).

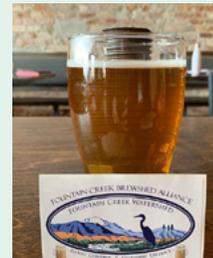

Community Outreach is also a primary focus of the Fountain Creek Watershed Flood Control and Greenway District. The District's two primary outreach programs are:

*Creek Week* cleanup and *Fountain Creek Brewshed Alliance*®.

*Creek Week* was launched in 2014 as a way to encourage citizens to help remove litter and debris from our land and waters, raise awareness for watershed health, and foster a sense of community. *Creek Week* is a 9-day, watershed-wide cleanup that happens each fall from the last Saturday in September through the first Sunday in October. Service groups, neighborhood associations, scouts, schools, churches, and individuals are invited to help make their home watershed safer and cleaner for all to enjoy.

The *Fountain Creek Brewshed Alliance*® is comprised of breweries and tap houses who sponsor educational events that connect the communities within the Fountain Creek Watershed through the shared values of healthy watersheds and locally made beer.
